

Fitwitz Childhood Obesity Lottery Pool [FCOLP]

*** * * A DOZEN KEY RULZ SO WE PLAY NICE * * ***

- 1) Each **PowerBall Pick is \$1.00** (i.e., we will not normally do the Power Play feature).
- 2) For jackpots <\$200,000,000 the investment will be **\$2/Drawing per Player** and will be in **10-Drawing increments** (i.e., \$20 every 5-weeks with two Drawings per week).
- 3) For jackpots >=\$200,000,000 the investment will be **\$4/Drawing per Player** and will be in **4-Drawing increments** (i.e., \$16 every 2-weeks with two Drawings per week).
- 4) All Pool funding goes toward buying game Tickets (i.e., no house take) and all winnings will be equally shared.
- 5) In general, if I don't have your money by the time I am buying the Tickets then you are NOT in the Pool ...the take away point here is that it is YOUR responsibility to get the money to me—NOT for me to track you down!
- 6) We'll reuse the same Pick numbers each time (which were all originally PowerBall QuickPicks).
- 7) For Pool winnings under \$100 (i.e., *Match PB*, *Match 1 + PB*, *Match 2 + PB*, or *Match 3*) the proceeds will be reinvested to buy additional Picks for a subsequent Drawing. For Pool winnings of \$100 or more from a *Match 3 + PB* or *Match 4* the proceeds will be used to proportionately offset future Pool funding for the Players who were in the Pool when the money was won. Big prize money (i.e., >\$10,000) from a *Match 4 + PB* or *Match 5* will be equally distributed to the Players included in the Drawing from which it was won.
- 8) If you leave the Pool with any reinvested winnings (i.e., *Match PB*, *Match 1 + PB*, *Match 2 + PB*, or *Match 3*) on-the-table then you forfeit any such winnings and entitlements from the future Draw in which it is used. As to your proportionate share of an on-the-table \$100+ prize, it will be used to fund the Pool in your name for an appropriate number of full-share future draws (with any fractional part being truncated). Point is, I'm just not getting into distributing money for such small dollar amounts.
- 9) When we win the Grand Prize jackpot (*Match 5 + PB*), **1% of the annuity value** will come off-the-top up-front (i.e., if the annuity Grand Prize is \$100 Million then \$1 Million will be committed) to go toward addressing the childhood obesity epidemic in the USA. Thus, we will each effectively fund this effort proportionately from the **first payout** of our respective jackpot winnings. **By joining this pool you acknowledge the childhood obesity cause as key to this Fitwitz Childhood Obesity Lottery Pool endeavor.** Details of the legitimate use of this funding will be determined at the time by Fitwitz but will likely involve an educational approach.
- 10) I will buy our Picks and try to email either copies of the actual play Tickets or simply our Pick numbers to ya'll BEFORE each Drawing (unless there is no change in our Pick numbers from the last Picks notice). THESE Picks will be the only ones that entitle FCOLP Players to Pool Winnings (i.e., lottery plays done separately by any Pool Players are for their own account).
- 11) Within a day or so of each Drawing I will email you the Results (of course, you can look them up yourself also).
- 12) Our aim is to cap participation at 24 Players in the Pool. If you know folks who would like to participate in this Pool have them email obesity@fitwitz.com referencing your name ...I will do my best to include them in the Pool or wait list them.
